- MIS & BI Dashboard Reporting / Data-driven Decision Support
- Data Analysis & Large Dataset Management
- Inventory Management, Order Processing & PO Coordination
- Data Accuracy, Integrity & Compliance
- Team Leadership & Cross-platform Coordination
- Product Listing & Catalog Management

EXPERIENCE

MIS Executive — White Shrub Pvt. Ltd. (Cherry Crumble)

2022 – 2024

- Managed 1,500–2,000 daily orders via Uniware, ensuring dispatch within TAT.
- Maintained data accuracy across 2+ lakh SKUs using advanced Excel-based inventory tracking.
- Handled returns, claims, and follow-ups across Myntra, Flipkart, Amazon, and other platforms.
- Built MIS and dispatch reports using VLOOKUP, Pivot Tables, and conditional formatting to support daily decision-making.
- Supervised and guided a team of 15+ employees to ensure smooth, on-time operations.

E-commerce Executive — Shreem Swarnam Design Concept Pvt. Ltd. (Diviniti)

2024 – 2025

- Handled 50–100 daily orders across Amazon Flex, Seller Central, FBA, Flipkart, and Shopify, ensuring on-time dispatch within TAT.
- Maintained daily inventory accuracy for 51,000+ SKUs using Excel-based tracking systems.
- Managed returns, claims, and daily follow-ups on Amazon and Flipkart.
- Created and maintained bulk and single product listings with A+ content on Amazon and Shopify.
- Prepared MIS and dispatch reports using advanced Excel to track performance and flag discrepancies.

E-commerce Executive — IN Time Garments Pvt. Ltd.

2025 – Present

- Created, updated, and optimized product listings on Nykaa, Myntra, and Shopify with accurate titles, descriptions, images, pricing, and attributes.

- Managed end-to-end Shopify backend operations including product uploads, collection structuring, inventory sync, pricing updates, and third-party app integrations.
- Improved product visibility through keyword-rich, well-tagged and categorized listings.
- Coordinated with design and operations teams to resolve catalog discrepancies and maintain accurate live listing status across platforms.
- Monitored listing health and resolved issues related to stock sync, mismatches, and product visibility.
